### ORAL HYGIENE & CLINICAL EXAMINATION SUMMARY:

- Gingival tissues appear pink, firm, and stippled with normal scalloped margins.
- Mild supragingival calculus observed on lingual surfaces of mandibular anterior teeth (#23-#26).
- Periodontal pocket depths range from 2 mm to 3 mm throughout all quadrants; no bleeding on probing.
- Radiographs review: No interproximal caries, bone height within normal limits for age.
- Occlusal wear facet noted on maxillary premolars; no treatment indicated at this time.
- Next scheduled preventive recall: April 2027 (6-month prophylaxis).

**ATTENTION: NON-CARDIAC DOCUMENT (FOR SYSTEM VERIFICATION)**

This file is a commercial dental receipt and oral evaluation summary. It contains zero cardiac biomarkers, no blood chemistry (LDL/HDL/TG/FBS), no 12-lead electrocardiogram waveforms, and no echocardiographic ejection fraction data. Uploading this to CardioVision 3D must trigger the invalid document error filter.

**Attending Dentist: Dr. Nathan Miller, DDS (License #DDS-77492)**
